DUNE – A mythic and emotionally charged hero's journey, Dune tells the story of Paul Atreides, a brilliant and gifted young man born into a great destiny beyond his understanding, who must travel to the most dangerous planet in the universe to ensure the future of his family and his people. This is another major release that should have major appeal to Sci-Fi movie fans, and a film that **MUST** be seen on the big screen. Soundtrack by Hans Zimmer.

Clifford the Big Red Dog - When middle-schooler Emily Elizabeth (Darby Camp) meets a magical animal rescuer (John Cleese) who gifts her a little, red puppy, she never anticipated waking up to find a giant ten-foot hound in her small New York City

apartment. Based on the beloved Scholastic book character, Clifford will teach the world how to love big!

ETERNALS - The saga of the Eternals, a race of immortal beings who lived on Earth and shaped its history and civilizations.

GHOSTBUSTERS: AFTERLIFE - when a single mom and her two kids arrive in a small town, they begin to discover their connection to the original ghostbusters and the secret legacy their grandfather left behind.

Coming soon - January Comedy
